WORK EXPERIENCE

Empower | SOFTWARE ENGINEER

Denver, CO | April 2024 – Present

- Implemented changes to 401k participant mobile app applications.
- Audited participant app for accessibility and translation issues.

DMSi | SOFTWARE ENGINEER

Omaha, NE | May 2020 – April 2024

- Architected complex reusable components for the shared design system to provide a consistent feel during advanced user interactions across the suite of four mobile applications.
- Enforced Apple's Human Interface Guidelines to meet platform-specific user experience expectations.
- Administered thousands of code reviews, proposing algorithmic alternatives to improve app performance.
- Engineered two app modules in **React Native** to allow warehouse workers to quickly handle shipments.
- Conducted workshops on **TypeScript**, **Git**, and **Testing for Accessibility** to 50+ engineers in internal trainings.
- Communicated with 10+ team members during **Agile** meetings to inform product decisions about technical requirements, restrictions, and UI/user experience flows, improving overall software solutions.
- Deployed 9 composite GitHub Actions and provided training to developers on best-practices.

PROJECTS

MOBILE APPLICATIONS

IOS, SWIFT, SWIFTUI, REACT NATIVE, REDUX, XCODE

- Designed 5 utility mobile apps by seeing a need in the market and releasing the solutions to the App Store.
- Developed a wide range of technology stacks to construct these apps: 2 in React Native, 3 in Swift, including SwiftUI.

OPEN SOURCE CONTRIBUTIONS

GIT, JAVASCRIPT, REACT NATIVE, PHP

- Standardized the School of Computing's grading system, a platform used by hundreds of students annually, to utilize the school's authentication system.
- Debugged and corrected multiple Expo modules with tens of thousands of weekly downloads.

VOTER TOKEN GENERATOR AND PARSER

RUBY, LATEX, REGEX, SCRIPTING

- Created voter authentication tokens to permit a high school organization to conduct yearly officer elections via an online form while providing for election security. Used annually since 2020.
- Reduced turnaround time by over 75% when compared to the previous paper and pencil method.
- Facilitated over 1500 votes for 4 annual elections, with 0 reports of illegitimate votes.

EDUCATION

Masters of Science - Computer Science

UNIVERSITY OF NEBRASKA-LINCOLN

Lincoln, NE | May 2023

Masters of Engineering Management | BUSINESS MINOR

UNIVERSITY OF NEBRASKA-LINCOLN

Lincoln, NE | May 2023

BSc. Computer Science | MATHEMATICS MINOR

UNIVERSITY OF NEBRASKA-LINCOLN

Lincoln, NE | May 2021

SKILLS

Programming Languages: JavaScript/TypeScript, Python, Ruby, Swift, Java, Golang, SQL

Web Development: React/React Native, HTML/CSS, REST APIs, Netlify

Technology: GraphQL, Data Structures & Algorithms, RegEx, Bash, Git, Docker, LaTeX, CI/CD, GitHub Actions, AWS/S3, Machine Learning
